

5th Year Membership Frequently Asked Questions

Who is eligible for the 5th year free membership?

The 5th year free membership will be open to all students who were eligible to receive free access this year. In other words, if you had free access to the Weinstein Center, you will still continue to enjoy the use of the facility.

How long does my free access last?

All 5th year memberships will expire on July 31, 2010. For example: May graduates, membership will expire July 31, 2010. December graduates, membership will expire July 31, 2010.

What does the 5th year membership include?

We are still trying to determine what privileges and services we can offer during the fifth year. Our intention is to provide students all the same facilities, programs, and services they received while they were enrolled as a student, the only exception may be that they will not be eligible for intramural sports.

What does a student graduating in May need to do to access the facility for free?

Simple, just stop by the member services desk and complete the 5th year free membership card, rescan your hand, and we'll take care of the rest!

What does a student graduating in December need to do to access the facility for free?

The exact same thing as if you had graduated in May! We'll see you then!
