The VCU Outdoor Adventure Program is excited to announce that they are currently offering free Virtual Escape Room programs to VCU and University of Richmond students, staff, and faculty.

The one-hour programs are facilitated by a team building professional from VCU OAP and are conducted via the Zoom platform (no membership required). These virtual escape rooms are designed to help your team explore methods of working together effectively and efficiently while collaborating to find clues, solve puzzles, and decode riddles. Each player’s knowledge is valuable and participation is key!

They are currently offering three different virtual escape room experiences for up to eight players. VCU OAP current rooms available are:

Get Me Home If You Can
Oh no! Your 1968 weekend adventure has turned to disaster. After spending a lovely 3 days in Oregon, you want nothing more than to be home... however, it seems that the airline has different plans. Dressed in your best garb, you embark on an adventure just to get yourself home. Can you get there while the happy vacation memories are still fresh?

The Commute
San Francisco is famous for the cable cars. However, there are many other ways the people and visitors of San Francisco get around. Let’s see if your team can explore all the transportation options within 45 minutes. Good Luck.

Haunted Park
You have entered the Park only to find that it is not just creepy, but haunted as well. Once you step inside, the only way out is to work your way through the rides, graveyard and other puzzles to get to the exit and Breakout of the Haunted Park.

For more information, please email Sam Albert at scalbert@vcu.edu. If you are ready to schedule your virtual event, please provide Sam with three 1 hour blocks of availability for your team, as well as a list of participant names and email addresses. They can accommodate groups up to eight. Each participant would need an internet connection and the Zoom app on their mobile device or computer.
